SRI GUNTING PRATAMA

SUSTAINABLE AND ECO-FRIENDLY

We are committed to preserving the environment and supporting sustainable practices. Our Agar agar powder is responsibly sourced, ensuring the long-term health of marine ecosystems. By choosing our product, you contribute to the protection of our oceans and the sustainability of our planet.

💡 Agar-agar was accidentally discovered in the 1600s by a Japanese innkeeper who threw out leftover seaweed noodles out into the snow and saw it freeze out to a paper-like substance next morning.
In Japan, it's called 'kanten'

Gelatin vs Agar-agar

Gelatin is extracted from animal skin and bones

Agar-agar is extracted from seaweed/algae and is **VEGAN**

Gelatin needs refrigeration to set and will melt at warm temperatures

Agar-agar jellies set at room temperature and won't melt at warm temperatures

Agar is mainly sold in
3 forms

Powder

Easiest to dissolve

Flakes

Slightly easier to dissolve

Strands / Block

Harder to dissolve

for 350ml

of liquid

you will need...

1 tsp
powder

1 tbsp
flakes

1/3 cup
strands

- for softer jelly or when using fruit pureé, use less agar-agar -

COOKING WITH AGAR-AGAR

Flakes / strands / block - soak in water for 15 mins to hydrate.
Powder - No soak needed. Mix in room temperature water to dissolve.

Let it come to a boil until agar strands / powder is completely dissolved. Add flavour / spices / sweetening.

Pour into molds & set at room temperature. Refrigerate before serving.

EASY TO USE

Our Agar Agar powder is finely ground, making it effortless to incorporate into your daily routine. It dissolves easily in hot boiling water 90°C, allowing for seamless integration into various recipes and preparations

OUR GOAL

Unlock the hidden treasures of the sea with our Agar agar Powder. Embrace the health benefits and unique flavors of agar agar while promoting a sustainable lifestyle. Order now and indulge in the goodness of the ocean in the comfort of your home.

WHAT WE CREATE?

AGAR - AGAR POWDER TYPE SGT A is a technical grade especially studied for the production of gels for meristematic culture.

Applicative Benefits

- Extremely good thermo resistance at sterilization cycle.
- Very good low/high pH tolerance.
- Very clear and translucent gel.
- Infinitely thermoreversible.
- Excellent water-binding capacity.
- Fast dispersion of powder and easy solubility.
- Absence of herbicide and pesticide residual.
- Absence of growth inhibitors mineral.

Parameter	Srigunting Agar
pH	6.00-7.50
NTU	<40
Gel Strength (g/cm ²)	800-900
Ash Content (%)	Max.6.50
Kadar Air (%)	<13
Powder Whiteness	>55
TPC (CFU/g)	<5000
Coliform (CFU/g)	negative

Application Areas

AGAR - AGAR POWDER TYPE SGT A is a perfect gelling agent for plant propagation media

Recommended Dosage :

- Min 0.5% - for soft gel product
- Max 2.0% - for strong gel product
